THE PLANETS THIS TOPIC TURNS ON

- Mercury — Leo, twelfth house:** signifier of speech, intellect and trade. Capable, though the cleverness leans on outside support. Friend's sign brings heavy expense offset by standing and gain through distant connections, though

some dissatisfaction through father and career; its aspect on the 6th brings success over rivals through discernment. State (Mrita): a 'dead' (Mrita) state — significations are weak or dormant until a stronger dasha or transit revives them.

lord of the tenth house; lord of the first house; natural significator of your career

- **Saturn — Sagittarius, fourth house (retrograde):** significator of discipline, labour and delay. Ordinary discipline — duty performed without particular struggle or particular reward. Friend's sign brings some deficiency in home comfort and difficulty around children, though real gain in education; its aspects bring real influence over rivals and mixed fortune from disputes (own sign), success in career through effort, and some physical unease alongside real effort and influence. State (Mrita): a 'dead' (Mrita) state — significations are weak or dormant until a stronger dasha or transit revives them.

lord of the sixth house; natural significator of your career

- **Moon — Taurus, ninth house:** significator of mind, emotion and the mother. Emotionally at its best — nourishing, intuitive, and unusually resilient. Brings real wealth, unexpected windfalls and good fortune; its aspect on the 3rd brings some diminished sibling comfort and personal drive. State (Kumara): a growing, adolescent state — results build gradually rather than arriving in full.

lord of the eleventh house

- **Venus — Cancer, eleventh house:** significator of love, comfort and the arts. Uneasy in love or comfort — indulgence stands in for real connection. Enemy's sign brings real success in education and children, and gain from distant connections offset by hardship; its aspect on the 5th brings good growth in income through wit. State (Vridha): an aged state — past its peak; results are real but past their prime, or slower to renew.

lord of the second house

- **Sun — Cancer, eleventh house:** significator of soul, authority and the father. Supported and able to act, though the confidence is partly borrowed. Friend's sign brings real income despite worry over expenses, and honour and comfort from distant connections; its aspect on the 5th brings weak education and difficulty with children. State (Bala): an infant state — its significations are slow to mature and easily overshadowed by other factors in the chart.

natural significator of your career

- **Jupiter — Cancer, eleventh house:** significator of wisdom, fortune and expansion. Expansive and trusted — wisdom and good fortune arrive together. Friend's sign brings real growth in income and comfort through mother and home too; its aspects bring growing personal drive and sibling comfort, some difficulty around education and children, and real success in daily business with a beautiful, capable spouse. State (Mrita): a 'dead' (Mrita) state — significations are weak or dormant until a stronger dasha or transit revives them.

natural significator of your career

CAREER SIGNIFICATORS IN YOUR CHART

- **Mercury** (lord of the 10th, from the Lagna): writing, accounting, teaching, or skilled handicraft.
- **Saturn** (lord of the 10th, from the Moon): manual labour or service — a position earned through endurance rather than given.

TIMING: SUB-PERIODS OVER THE NEXT THREE YEARS

Each line is a real Vimshottari sub-period computed from your birth data. A period is marked when its lord rules one of this topic's houses or is its natural significator; those are the stretches when this area of life is classically emphasised. This is guidance on timing, not a promise of an event.

Nov 2025 – Oct 2026 **Jupiter – Ketu** (running now)

Classically this sub-period brings exhaustion tied to separation from a partner, financial loss, illness, friction with family, and travel or dislocation.

Oct 2026 – Jun 2029 **Jupiter – Venus** — activates this topic (Venus: lord of the second house)

Classically this sub-period brings gains in property or land, good health and vigour, marks of honour and status, growing wealth and family, and increased longevity.

Jun 2029 – Apr 2030 **Jupiter – Sun** — activates this topic (Sun: natural significator of your career)

Classically this sub-period brings separation from family or a spell away from home, mental strain and worry, health trouble, and a risk of loss through theft or squandering of savings.

CLASSICAL YOGAS IN YOUR CHART

YOGA NAME	CATEGORY	PLANETS	EFFECT / DESCRIPTION
Dhana Yoga	Dhana	Moon, Venus	A wealth yoga: the lords of the 2nd and 9th and 11th are linked by exchange. The tradition reads the houses of earning and the houses of merit as working together rather than separately, which is what this link means.
Raja Yoga	Raja	Jupiter, Venus	The classical Raja Yoga: the houses of action and the houses of fortune are tied together through Jupiter and Venus by conjunction. Read as capacity meeting opportunity, and traditionally expected to deliver during the periods of the two planets involved.
Pasa Yoga	Nabhasa — Sankhya	Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn	Pasa Yoga: earns wealth by honest means, with the help of family and servants.
